

# Community Cinema Survey - Nov 2010

St Ives, with its population of 17,000, has not had a cinema for over 20 years. The reopened St Ives Corn Exchange provides the opportunity to host a community cinema.

ACE is raising funds for projection and sound equipment for the Corn Exchange. Applications for grants require evidence of community support, so please take a minute to give us your views.

Do you agree that the Corn Exchange should provide a community cinema amenity for the town of St Ives and surrounding villages ?
